

# **Modular/Mobile On-Site Maintenance for Fleet and Industrial Equipment**

Clarification Questions – November 14<sup>th</sup>

**~Does transportation of patients and families need to be within Shelby County or outside?**

*The demand would be variable and could easily exceed the baseline, though no guarantees. Quarterly a total of at least 15 vehicles need inspection for repairs and oil changes. Additional volume could be obtained through offer service to institution's employees*

**~What are the insurance requirements?**

*Institution would be required to list as additional insured and set a threshold, especially if done on campus.*

**~Does the institution currently utilize any software for scheduling maintenance of vehicles, plant, etc.?**

*No*

**~Does the institution require any additional certifications for repairs?**

*Standard certifications will suffice*

**~Is the institution open to exploring a crowdsourcing solution for auto/equipment maintenance, similar to the Burst Staffing platform?**

*Open, but with caveats. Institution would need the opportunity to vet and understand the suppliers and discuss implications for insurance. Applicants are welcome to explore this idea, but institutions current preference is for a single source solution or a partnership of a few vendors.*
